

Empower Contractors to Succeed with the Strategic Advantage of a Powerhouse Partnership

UNLOCK GREATER MARKET SHARE BY ELEVATING CONTRACTOR PERFORMANCE

Many contractors struggle with effectively implementing and using ServiceTitan, impacting their day-to-day operations. Powerhouse bridges this gap by providing expert guidance to optimize software use, streamline processes, and drive growth. Our partnership equips your contractors with the tools and knowledge they need to excel, ultimately enhancing their efficiency and boosting your market share.

Tailored Workflows

We provide customized workflows and personalized SOP's for contractors ensuring they are using best practices as it pertains to their business, industry and their data.

Personalized Training

We can provide contractors who are in need of individualized assistance to meet their software needs and goals.

Agreement Troubleshooting

We understand industry standards for agreements and can assist with Agreement structures or data clean up, enabling automated growth specifically in shoulder seasons.

Increase Sales

Powerhouse implements, improves, and trains a contractor on how to fully leverage their technology to increase sales and decrease their bottom line.

Customized Reporting

We understand industry standards and can help with simple or complex reporting, aiding a contractor in accurate business decisions.

Account Deep Dives

We provide an in depth analysis of how the contractor is using their software in order to provide recommendations on software optimization. We identify the "i don't knows" and turn them into actionable plans guiding operational efficiencies.

Project Management

Specifically when implementing a new software, contractors may have multiple stakeholders involved. We help track their tasks and keep everyone on their timeline.

Training Solutions

Powerhouse offers training solutions for contractors directly as well as hands on group training sessions to really move the needle on important features and functions in the software.

Workflow Design

One of the biggest opportunities in getting a contractor to utilize their software successfully is understanding how to design or modify their existing workflows to fit within the platform.

Hands on Support

Implementation is a full time job for a contractor. We can be an extension of their business by supporting their implementation. We can do the heavy lifting for data entry and account set up.

Change Management

Changing software is hard. We're been there and can help leadership with change management. We can help everyone to prepare and get excited for this change, eliminating pain points.

Continued Support

Powerhouse offers continued support outside of targeted project or training assistance, becoming an active extension of a contractor's business; a trusted resource with the industry and subject matter expertise to guide continued solutions.
